Dear Dr. Leet:

Many thanks for your interesting letter of April 3rd, which has just reached me. Since I last saw you, I have been transferred from MID, War Department to my present station in the Central Intelligence Group, Building. [REDACTED]

Your comments, and the editorial, are very interesting and rest on a convincing common sense basis. I am glad to have these authoritative views for file. I expect that my present office may some day have occasion to comment on this subject in connection with coordination of intelligence activities. Hence, I plan to keep the whole file current. With the help you have given and are giving to this file, we should be in a position to make sensible and constructive comments when the time comes.

I am keeping an interested eye on S-1850. It looks to me as if the bill is widely acceptable, and has a good chance of going through without undue delay and without undue mauling.

If you come to Washington any time soon, I hope you will look me up, so that we may compare notes since our last conversation. My new extension is 77606.

Very sincerely,
